

## 300 Series Triple Brace Steel Folding Chair

We took one of our best selling chairs and made it even better. This chair has all the features of our 200 series, like double hinges, heavy 18 gauge tubing, our double contoured back, waterfall seat, V shape stability caps and

plastic, non marring glides. We then added 3 U shaped riveted cross braces, instead of two. This chair is the strongest chair you can get!

**Back Leg Stability Plugs**      **Double Hinge**      **Double Riveted U Brace**
